

# News From the Big Room Flock

May 6, 2022

If you are interested in your child fine-tuning some of their math skills, I would love to work with them this summer. My “school work day” will be Tuesdays. Let me know so I can save a time slot for your child. We can do this as many or as few times as your family schedule allows.

For our Spring/Graduation program, we ask each family to bring in a dozen cookies to share for the reception following.

We have accomplished so much in a very short time. These young ladies really know how to work! 7th grade finished another math unit and is moving on to statistics. 6th grade will continue to work on fractions, decimals, and percents, while 8th grade finishes the unit on linear equations and moves into geometric measurements. This week we had our last spelling test and weekly vocabulary test. After 20 lessons, your student should have added 300 words to their vocabulary in one year. That is pretty impressive. We will be doing our final AimsWeb testing and our four-end-of-the-year vocabulary tests in the next few weeks. Kiddos should be studying vocabulary words a little bit each night.

In Bible class, we continue to look at Revelations. This is a profound book of the Bible that, at times, raises more questions than answers. However, we continue to move forward, comforted that God knows all things and the end will be just a wonderful beginning with Him in heaven.

## Important Dates:

May 5,6 & 7 School-Wide Garage Sale

May 4- Library trip

May 14 Banks Township Clean-up day

May 23-Burning of the books and last library trip
